CTFL & CTAL-TA (ISTQB) | Azure Fundamentals, AI, Data & Security (Microsoft)

SUMMARY

Senior Quality Engineer and Software Development Engineer in Test (SDET) with 10+ years of experience in software quality assurance, test automation, and quality management. Holds a Master of Science in Quality Management (EMU) and ISTQB CTFL and CTAL-TA certifications. Proven expertise in C#/.NET, Playwright, Selenium, Cucumber, Azure DevOps, and LoadRunner Cloud. Experienced in web and mobile application testing across high-traffic consumer SaaS products. Skilled at building scalable test automation frameworks using the Page Object Model (POM), driving CI/CD pipeline integration, and delivering high-quality software across Agile environments.

Maintains a public multi-language test automation portfolio (C#, TypeScript, Playwright, BrowserStack, Applitools, JMeter) spanning unit, API, UI, mobile, load, and visual regression testing, available at github.com/gillersja1.

WORK EXPERIENCE

Staff Quality Analyst | FanDuel | Aug 2022 – Jun 2026

- Led manual testing efforts across web and mobile platforms for FanDuel's Daily Fantasy Sports product, covering functional, regression, and exploratory testing in a fast-paced, high-traffic consumer SaaS environment.
- Built and maintained Playwright automation using JavaScript/TypeScript, expanding automated test coverage across web and mobile layers as part of the team's automated suite.
- Contributed to the successful launch of Picks, a mobile-only application, and Predicts, a mobile-only application, executing manual test coverage across iOS and Android platforms for both product launches.
- Facilitated mob testing sessions, coordinating cross-functional team participation to maximize defect detection and improve test coverage prior to release.
- Participated in full Agile ceremony cadence including sprint planning, daily stand-ups, backlog grooming, and retrospectives, ensuring quality considerations were embedded throughout the development lifecycle.
- Tracked, documented, and managed defects through resolution, collaborating with developers and product owners to prioritize issues and maintain release quality standards.

Software Development Engineer in Test (SDET) | Sopheon | Jan 2022 – Apr 2022

- Embedded SDET on a cloud-native Agile team responsible for Azure-based product development and testing.
- Defined automation strategy for stories and features across unit, API/service layer, and UI testing levels.
- Built reusable Katalon Studio test automation frameworks using the Page Object Model (POM) for system and regression testing.
- Partnered with developers, product owners, and QA analysts to ensure testing aligned to business requirements.

Software Development Engineer in Test (SDET) | Jackson | Feb 2021 – Jan 2022

- Developed C#/.NET Azure Function Apps and xUnit test automation integrated into Azure DevOps pipelines.
- Created Cucumber Selenium test automation framework solutions for system and acceptance testing.
- Facilitated test strategy sessions with cross-functional teams including developers, Scrum Masters, and Product Owners.
- Utilized enterprise and Agile tools including JIRA, Confluence, and MIRO.

Senior Quality Assurance Analyst | Jackson | Aug 2013 – Feb 2021

- Led regression testing efforts for a large-scale insurance workflow processing system covering withdrawals, beneficiary changes, and related requests.
- Implemented test automation strategies that reduced overall regression testing effort by over 500 hours per release cycle.
- Developed and maintained automated test suites focused on effective and right-sized system coverage.
- Mentored junior QA analysts on automation development, testing best practices, and quality standards.

Manager – Inbound Sales and Customer Service | Guthy|Renker | Mar 2011 – Jul 2012

- Managed daily performance of multiple call centers across both sales and customer service functions.
- Developed and delivered in-person training programs to improve sales skills, conversion rates, and order value.

EDUCATION

Master of Science – Quality Management

Eastern Michigan University | 2014 – 2017

Bachelor of Science – Information Technologies

East Carolina University | 2010 – 2013

LICENSES & CERTIFICATIONS

- Certified Tester, Foundation Level (CTFL) – ISTQB | #15-CTFL-01823-USA
- Certified Tester, Advanced Level Test Analyst (CTAL-TA) – ISTQB | #16-CTAL-TA-00180-USA
- Microsoft Certified: Azure Fundamentals | #I196-8598
- Microsoft Certified: Azure AI Fundamentals | #I200-9322
- Microsoft Certified: Azure Data Fundamentals | #I203-5972
- Microsoft Certified: Security, Compliance, and Identity Fundamentals | #I207-2827

SKILLS

Test Automation: Playwright (C#, JavaScript/TypeScript), Selenium, Cucumber, Katalon Studio, xUnit, NUnit

Programming: C#, .NET, JavaScript, TypeScript

Web and Mobile Testing: iOS, Android, web application testing, mobile-only application launches

Performance Testing: LoadRunner Cloud, Apache JMeter — load, stress, and endurance testing

Visual Testing: Appliflow Eyes — AI-based visual regression testing

CI/CD and DevOps: Azure DevOps, Azure Pipelines, Azure Functions, GitHub Actions

Testing Methodologies: Manual testing, exploratory testing, mob testing, API testing, regression testing, acceptance testing

Frameworks and Patterns: Page Object Model (POM), Test-Driven Development (TDD)

Agile Tools: JIRA, Confluence, MIRO

Quality Standards: ISTQB CTFL and CTAL-TA, root cause analysis, defect management, continuous improvement

Cloud Infrastructure: Microsoft Azure (Fundamentals, AI, Data, Security certified)
